**TWO WAY RADIO CAR**

Platinum Service

## **Platinum Services**

There are times – client meetings, seminars, flight departures – when you absolutely, positively must have the car where you want it when you want it, and no leeway is possible. New York, however, is regularly home to unique events - presidential visits, diplomatic dinners – which often delay movement within the city.

To aid our major clients in dealing with these and other disruptions, and to provide you with greater peace of mind, we have established a higher level of service for you to call upon when necessary. It features

Specially selected later – model Lincoln Town Cars and other impeccably maintained vehicles from our general fleet

Knowledgeable and well – dressed drivers – suit and tie – to “meet and greet” the passenger ordering this service

Guaranteed on – time pickup after confirmation regardless of any unusual conditions other than a police – enforced lockdown

Driver out of the car at the specified location bearing a sign with the passengers name five minutes before the requested pickup time.

Copy of Wall Street Journal or New York Times; your preference
